

Question 4

Question 4:

Write a query that determines the customer that has spent the most on music for each country.
Write a query that returns the country along with the top customer and how much they spent.
For countries where the top amount spent is shared, provide all customers who spent this amount.

After running the SQL code provided in the text file joined, we were able to identify, all the best customers per country. For instance the best customer of all the database which also the best customer for The Czech Republic spent in total : \$49.62 and her name is : Helena Hola.
