

Question 3

Question 3:

We want to find out the most popular music Genre for each country. We determine the most popular genre as the genre with the highest amount of purchases. Write a query that returns each country along with the top Genre. For countries where the maximum number of purchases is shared, return all Genres.

Most popular Music genre in each country, along with their purchases (total Order count)

After running the SQL code provided in the text file joined, we were able to find that, out the 24 country registered in database, 23 had their highest number of order in the Rock music category. Meaning that almost all users of the database prefer Rock music.
